Bukkehorn

# BIO

Alessandro e Davide sono due polistrumentisti veronesi provenienti dall'Irish traditional e dal metal, con 15 anni di concerti alle spalle.

È da una loro idea che nasce il Ragnarök - Viking & Nordic Folk, per proporre un accattivante repertorio di canzoni tradizionali nordeuropee in lingua scandinava e moderne, con qualche accenno al mondo epico e fantasy; l'islandese, il norvegese moderno e il norreno antico si mescolano per creare un'atmosfera epica, che culmina nella recitazione musicata dell'Edda poetica, la fonte principale della mitologia nordica.

Il loro sound si è spinto all'estero e su quasi tutti i palchi dei festival pagan/viking e celtic come il Montelago Celtic Festival e il Triskell.

Hanno partecipato con le loro musiche a documentari trasmessi su TV nazionale e satellitare.

La rivisitazione di vari gruppi - come i Wardruna - la colonna sonora della serie TV Vikings e sempre più brani inediti, vengono accompagnate da strumentazione originale d'epoca vichinga che si fonde con quella moderna e digitale forgiando una suggestiva e coinvolgente performance.

(ENG)

Alessandro and Davide are two Veronese multi-instrumentalists from Irish traditional and metal, with 15 years of concerts behind them.

It is from their idea that Ragnarök - Viking & Nordic Folk was born, to propose a captivating repertoire of traditional Northern European songs in Scandinavian and modern languages, with some hints to the epic and fantasy world; Icelandic, Modern Norse and Old Norse mix to create an epic atmosphere, culminating in the musical recitation of the poetic Edda, the main source of Norse mythology.

Their sound has gone abroad and on almost all the stages of pagan / viking and celtic festivals such as the Montelago Celtic Festival and Triskell.

They participated with their music in documentaries broadcast on national and satellite TV.

The reinterpretation of various groups - such as the Wardruna - the soundtrack of the TV series Vikings and more and more unreleased songs, are accompanied by original Viking period instrumentation that blends with the modern and digital one, forging a suggestive and engaging performance.
